Mobile: [+91-8179238137](tel:+91-8179238137)

Career Objective

Final-year Information Technology student with strong skills in programming, data analysis, and web development. Passionate about applying AI/ML and software development skills to build scalable solutions and contribute to organizational growth.

Education

B.Tech in Information Technology

Dhanekula Institute of Engineering and Technology, Vijayawada, AP

CGPA: 8.28 | Expected Year of Graduation: 2026

Intermediate (12th), Board of Intermediate Education, AP

AP Model Junior College, Kanigiri

Percentage: 66% | Year: 2022

SSC (10th), Board of Secondary Education, AP

AP Model School, Kanigiri

Percentage: 97% | Year: 2020

Internships

Python Full Stack Developer Intern – APSICHE, IIDT & Blackbucks

Virtual | May 2024 – July 2024

- Developed a responsive website using HTML, CSS, JavaScript, Express.js, and MongoDB
- Collaborated in full-stack development tasks including UI design and backend API integration

ChatGPT, Prompt Engineering & Generative AI Intern – APSICHE, IIDT & Blackbucks

Virtual | May 2025 – July 2025

- Assisted in creating and maintaining documentation for AI models, prompt templates, and generative AI procedures
- Conducted research on LLMs, prompt engineering best practices, and AI ethics
- Developed 20+ optimized prompt templates, improving accuracy and reducing template creation time by 30%

Skills

Programming Languages: C, Java, Python, C++

Web & Tools: HTML, CSS, JavaScript, VS Code, MS Office

Databases & Platforms: MongoDB, SQL, Google Cloud (Basics)

Soft Skills: Communication, Teamwork, Problem-solving, Time Management

AI/ML Tools & Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Projects

AI-Powered Loan Approval Classifier | Python, Scikit-learn, OpenAI API, Streamlit

- Built a hybrid system combining Random Forest ML model (81.6% accuracy) with ChatGPT for loan approval predictions
- Implemented **prompt engineering** to generate natural language explanations for every decision, improving user trust and transparency

Student Management System – Java, MySQL, HTML, CSS

Developed a web-based system to manage student records, courses, grades, and attendance. Implemented CRUD operations using Java Servlets and JDBC, connected to a MySQL database, and created an HTML/CSS frontend for easy data management.

Certifications

- Python Full Stack Development** – IIDT
- ChatGPT, Prompt Engineering & Generative AI** – IIDT
- AI & ML** – Google for Developers
- Java Programming** – IIT Bombay
